DESCRIPTION OF THE ACTION (10 lines)

Multicultural activities are meant to bring together people from different backgrounds. By working together we learn to understand each other's needs and cultures. In co-operation with the youth and the communities, we provide the youngsters the possibilities to develop their self-esteem, experiences and potentiality. By co-operation, free time activities, meetings, discussions and other activities, the youngsters get the courage to choose and make their own decisions. We provide information, knowledge and other possibilities to have the control of their lives and to grow up as an adult. Through multi-ethnic and intercultural dialogue, our intention is to break barriers and prejudices, cross borders in minds and initiate friendships. The main purpose of our activities is to support the integration process and promote participation of the immigrant youth. We also work towards the full accessibility, of the immigrant youth to the system.

KEY ELEMENTS

The full participation and integration of the immigrant youth.

OBJECTIVES

To promote understanding between different cultures and individuals and take 100% benefit of our diverse society.

METHODOLOGY
