DESCRIPTION OF THE ACTION

The projectejobevcn (Young people project Barcelona) was an initiative to define, through a participation process, Barcelona city council youth policies. The aim, at the end of the process, was to count on a new Youth Direction Plan for 2006-2010, which would include needs and expectations of the city young people about subjects like: education and occupation, housing, information, social participation, associationism, young people places, health, civil rights, equal opportunities, social prevention and care, culture, youth nights, leisure, tourism, consumption, sustainability, mobility, education, sports, peace and cooperation.

KEY ELEMENTS

It was a participation process of two years. Barcelona young people defined the subjects they are concerned by.

OBJECTIVES

Objectives of the project: 1/ To analyse the new young people reality in the city. 2/ To show the actions for young people which are done by the Barcelona city council. 3/ To get the opinion from citizens, especially from young citizens, about programs and services for young people. 4/ To define and concrete objectives, strategic lines and measures about young people. 5/ To guarantee tools of follow up, coordination and assessment of municipal actions in youth affairs. 6/ To set discussion and coordination places between administrations which develop actions about youth subjects.

METHODOLOGY

It was a process of four years (2004/06) with the following phases:
-Phase 1: diagnosis and information (Enquiry for young people between 15 and 29 years. Internal work by the city council worked to collect every municipal action which is addressed to young people).
-Phase 2: reflection and participation (design and development of the participation process projectejobevcn with the collaboration of the Barcelona Youth Council).
-Phase 3: elaboration and approval (elaboration and definition of the new Youth Direction Plan for 2006-2010 and approval in the plenary session in the city council).
